CONTENTS - VOLUME XI, 1989

No. 1

Antibodies to structural and nonstructural gag-coded proteins of type-D retroviruses in humans with lymphadenopathy and AIDS.
MOROZOV V.A., ILYINSKII P.O., UCKERT W.A., WUNDERLICH W., ILYIN K.V. 1

Stimulatory effects of small intestine mucosal factors on the proliferation and antibody formation of primarily cultured rat splenic lymphocytes.
TAKAHASHI N., OBATA R. 7

Effects of thiobenzamide on the rat immune system.
PASQUINELLI P., VAGLINI F., PIERACCI D., ETTORRE V., PUCCINI M., MALVALDI G. 15

Thymomodulin increases the depressed production of superoxide anion by alveolar macrophages in patients with chronic bronchitis.
MAIORANO V., CHINANESE R., FUMARULO R., COSTANTINO E., CONTINI M., CARNIMEO R., CAZZOLA P. 21

Effect of rokitamycin on human polymorphonuclear leukocyte chemotaxis.
TORRE D., BROGGINI M., ROSSI S., SAMPIETRO C., BOTTÀ V. 27

Microradiographic study of bone and tooth alterations in bovine fluorosis.
NYSSEN-BEHETS C., VANDERSMISSEN A., ANSAY M., DHEM A. 31

Reduced fibrinolytic capacity and its restoration by plasminogen substitution in acute renal failure.
SEITZ R., KARGES H.E., WOLF M., EGBRING R. 39

Phase IV evaluation of piroxicam in acute and chronic painful inflammatory disorders: an Indian study.
NAVANI S.R., RAGHU C.N., JHA R.J., BOWALEKAR S.K., OKE V.G. 47

No. 2

Gastric mucosal damage by nonsteroidal anti-inflammatory drugs.
BENNETT A. 53

Protective effect of the PAF-antagonist BN 52021 on several models of gastro-intestinal mucosal damage in rats.
ETIENNE A., THONIER F., BRAQUET P. 59

Cellular energy status of the gastric mucosa and gastric mucosal prevention by vitamin A in indomethacin-treated rats.
MÓZSIK Gy., GARAMSZEGI M., JÁVOR T., NAGY L., SÜTŐ G., TÓTH Gy. VINCZE Á. 65

Rapid enhancement of cAMP accumulation in rat brain particulate fraction after ischaemia.
DOMAŃSKA-JANIK K., PYLOVA S. 73

High affinity binding sites for perindopril a new inhibitor of angiotensin-1-converting enzyme (ACE) in the rabbit kidney: Possible evidence for localization of ACE in endothelial structures and in glomerular mesangium.
MORIN J.P., MOULIN B., BORGHI H., FILLASTRE J.P. 81

Haematoporphyrin and atherosclerosis in the broad-breasted white turkey: distribution and quantitation in thoracic and abdominal aorta.
PAGNAN A., SCANNAPIECO G., PAULETTO P., PERIN A., JORI G. 93

No. 3

Factor released from human lymphocytes stimulated cholinergically *in vitro*: an E-rosetting inhibitor.
BORTKIEWICZ H., RYŻEWSKI J. 101

In-vitro versus *in-vivo* activities of new 5-lipoxygenase inhibitors with antiinflammatory activity.
MONTANDON J.-B. ZIJLSTRA F.J., WILSON J.H.P., GRANDJEAN E.M., CICUREL L. 107

The effects of heparin and cortisone on an experimental model of pannus.
CHANDER C.L., COLVILLE-NASH P.R., MOORE A.R., HOWAT D.W., DESA F.M., WILLOUGHBY D.A. 113

Rhein reduces proteoglycan loss during the autolytic breakdown of cultured cartilage.
MIAN M., BENETTI D., ROSINI S., FANTOZZI R. 117

Acute-phase response of angiotensinogen in rat adjuvant arthritis.
OKAMOTO H., HANAOKA M., YAYAMA K., OHTANI R., ITOH N. 123

Phospholipase A_2-induced pleural inflammation in rats.
WEICHMAN B.M., BERKENKOPF J.W., MARSHALL L.A. 129

Blood-nerve barrier of endoneural vessels in experimentally-induced hypothyroidism in rats.
CAVALETTI G., BARAJON I., PETRUCCIOLI M.G., TREDICI G. 137

Cytolytic activities of benfluron metabolites and loss of transplantability.
MIKO M., KREPELKA J., MELKA M. 143

No. 4

Non-proteolytic activation of latent human neutrophil collagenase and its role in matrix destruction in periodontal diseases.
SORSA T., SAARI H., KONTTINEN Y.T., SUOMALAINEN K., LINDY S., UITTO V-J. 153

Myofibroblasts in cotton-induced granulation tissue and the bovine adrenal capsule: morphological aspects.
CHANDER C.L., MOORE A.R., LEWIS G.M., COLVILLE-NASH P.R., DESA F.M., HOWAT D.W., WILLOUGHBY D.A. 161

Short chain fatty acid-induced colitis in mice.
McCAFFERTY D.-M., ZEITLIN I.J. 165

Role of *S. enteritidis* LPS on anti-HSV activity of macrophages from different anatomical sites.
ARENA A., MERENDINO R.A., MASTROENI Pi, MANCUSO G., COSTA G.B., BONINA L. 169

The secretory immune system.
NEGRO PONZI A., MERLINO C. 175

Defibrotide, a stimulator of prostacyclin (PGI_2) production, prevents the effects of ischaemic damage.
FERRERO M.E., MARNI A., ROVATI M., AIMINI R., SALARI P.C., GAJA G. 179

Anti-inflammatory activity of *Teucrium polium*.
TARIQ M., AGEEL A.M., AL-YAHYA M.A., MOSSA J.S., AL-SAID M.S. 185

Cachectin/tumour necrosis factor-α in the circulation of patients with rheumatic disease.
MAURY C.P.J., TEPPO A.-M. 189

Cytotoxic proteases in blister fluid of pemphigus and pemphigoid patients.
GRANDO S.A., GLUKHENKY B.T., DRANNIK G.N., KOSTROMIN A.P., CHERNYAVSKY A.I. 195

No. 5

The changing philosophy in the search for anti-rheumatic drugs: a personal overview.
WILLOUGHBY D.A. 205

Cellular interaction in cartilage degradation.
DESA F.M., MOORE A.R., CHANDER C.L., COLVILLE-NASH P., HOWAT D.W., WILLOUGHBY D.A. . 213

A cytochemical study of the adjuvant inflamed air pouch in the rat.
HOWAT D.W., COLVILLE-NASH P.R., MOORE A.R., DESA FAUZIAH M., CHANDER C.L., WILLOUGHBY D.A. 219

Arthritis induced by continuous infusion of hr-interleukin-1 α into the rabbit knee-joint.
FEIGE U., KARBOWSKI A., RORDORF-ADAM C., PATAKI A. 225

NE-58095: a diphosphonate which prevents bone erosion and preserves joint architecture in experimental arthritis.
FRANCIS M.D., HOVANCIK K., BOYCE R.W. 239

Comparison of effects of chronic inflammation and long-term prednisolone administration on zinc metabolism in rats.
FONTAINE J., NEVE J., PERETZ A., PELEN F., FAMAEY J.P. 253

Serum interleukin-2 receptor levels measured by enzyme immunoassay in heart and kidney transplanted patients.
DE MARIA R., ZUCCHELLI G.C., CLERICO A., CARMELLINI M., DI STEFANO R., MASINI S., CAROLIA., MIAN M., BERTELLIA. 261

No. 6

Interaction between stimulators of adenylate and guanylate cyclases in human leukocytes, platelets and arteries.
GRYGLEWSKI R.J., KORBUT R., KALECINSKA A., ZEMBOWICZ A. 269

Formation and effects of leukotriene B_4 in human lymphocytes.
ODLANDER B., JAKOBSSON P.J., MEDINA J.F., RÅDMARK O., YAMAOKA K.A., ROSÉN A., CLAESSON H-E. 277

Proinflammatory effects of interleukin 1 in the rat air pouch.
ESSER R.E., EYERMAN M.C., PORT C.D., ANDERSON W. 291

The chemotactic properties of cartilage glycosaminoglycans for polymorphonuclear neutrophils.
MOORE A.R., CHANDER C.L., HANAHOE T.H.P., HOWAT D.W., DESA F.M., COLVILLE-NASH P.R., WILLOUGHBY D.A. 301

Cytoskeletal rearrangement by oxidative stress.
ROGERS K.R., MORRIS C.J., BLAKE D.R. 309

Evaluation and comparison of radioimmunoassay methods using monoclonal or polyclonal antibodies for the assay of cyclosporine in blood samples.
ZUCCHELLI G.C., CLERICO A., PILO A., MASINI S., ZOPPI F., BOVATI M.L., GAZZETTI P., GIOVANNINI L., BERTELLI A.A.E. 315

Tolerability profile of the antiinflammatory compound imidazole salicylate: a metanalysis of safety data in 1408 patients.
SCHIASSI M., BIANCHINI C., RESTELLI A., ZONI G. 321

Serum antibodies to cow's milk folate-binding protein in patients with chronic inflammatory bowel disease.
HØIER-MADSEN M., HOLM J., HANSEN S.I., NIELSEN O.H. 327
